

## Md. Sazedur Rahman

Contact: 01518952550

Email Address: [sazedur2000@gmail.com](mailto:sazedur2000@gmail.com)

Present Address: Mirpur 1, Dhaka, Bangladesh

LinkedIn Profile: <https://www.linkedin.com/in/sazedur-rahman-438854192/>

### Skills

**Specialized:** C, JS, Problem Solving, Algorithm, Data Structure, OOP, React JS, Node JS, API Integration

**Familiar:** Data Sorting, Data Analysis, Data Organizing, E-commerce Site Management

**Tools:** Code Blocks, VS code, Git, MS Office, Power BI

**Communication Skills:** Proficiency in both English and Bangla.

- **Problem-Solving Experience**
  - URI online judge (130+ solved)
  - UVa online judge (80+ solved)
  - Codeforces (50+ solved)
  - Hacker rank (20+ solved)
- **ICPC Contest**

Participated in the 2019 ICPC Preliminary Contest.
- **Problem-Solving Contest**

I have also participated in many problem-solving contests at my university. I stood 8<sup>th</sup> among the 300 participants in the Take Off programming contest.

### Projects

#### E-Medic Appointment

I made an appointment site for making appointments with doctors. Users can also store their previous prescriptions and upload prescriptions during an appointment.

**Language and Tools Used:** HTML, CSS, JS, React JS, Node JS, Mongo DB,

**Git Link:** <https://github.com/t3ng221/E-Med-Appointment>

**Live Link:** <https://emedic-appointment.netlify.app/>

### Education

Exam Name	Institute Name	Department/ Group	Passing Year	Board	Result
BSc in CSE	Daffodil International University	Computer Science & Engineering	2022	-	3.62
HSC	Udayan Uchacha Madhyamik Bidyalaya, Dhaka	Science	2017	Dhaka	4.42
SSC	Abdur Rob School and College	Science	2015	Barishal	5.00

## Job Experience

- **Junior Data Analyst**  
**Ecomclips**  
**DEC 2022 – Running**

I am currently working as a Junior Data Analyst in Ecomclips. Here I have to organize business data for Amazon sellers like inventory reporting, PPC reporting, payments reporting, and business sales reporting, and make decisions depending on the data. I had to provide simple and understandable data from raw files of business so that clients could easily apply strategy depending on the data. I learned to make reports where the business owner will have a proper understanding of the business's growth. I also had to do Amazon market research to have accurate knowledge of the business competitors and how our clients can compete with them in the market. I had to also conduct meetings with clients regarding different data scenarios and my findings.

## Certificates

1. **Complete Web Development Course with Jhankar Mahbub**  
I did this course back in 2021 and learned a lot of libraries and functions of React JS. I also learned how to integrate Node JS with React. I got an idea about Restful API.
2. **Name: Mobile Application Development - Android**  
I have done this training program under a government project called SEIP and the training program was 3mnth long. I learned about developing Android applications using Kotlin.
3. **Name: International English Language System (IELTS)**  
I obtained an overall 6.5 band in the IELTS exam and my results are; Listening: 6.5, Reading: 6.0, Writing: 6.0, and Speaking: 7.0.

## Additional Activities & Achievements

**Event organizer** – Graduation Ceremony of Batch 50

**Contest Organizer** – CPC-DIU 2020-2021
